**Directive 2011/65/EU (RoHS 2) and Elektro- und Elektronikgeräte-Stoff-Verordnung
Regulation (EG) Nr. 1907/2006 (REACH)**

Dear Ladies and Gentlemen,

for our products we provide the following statements:

Directive 2011/65/EU (RoHS 2) and Elektro- und Elektronikgeräte-Stoff-Verordnung

The products of Hauff-Technik GmbH & Co. KG are not subject to the above mentioned directives. None of our products contains hazardous substances listed in those regulations in concentrations above 0.1 weight percent.

Regulation (EG) Nr. 1907/2006 (REACH)

despite of our lubricants, detergents and assembling agents all of our products are categorized as articles, for which no obligations (registration, labelling, information) are imposed according to the above mentioned regulation.

Material safety data sheets of our lubricants, detergents and assembling agents are available online and on request respectively.

Immer. Sicher. Dicht.

According to the above mentioned regulation our expansion resins shall be specially labelled (starting from 24th February 2022) and obligations regarding user training and documentation (starting from 24th August 2023) for suppliers and downstream users are imposed since these products contain "Diphenylmethandiisocyanates, isomers and homologues" (CAS 9016-87-9).

Hauff-Technik is currently working on a concept to meet these obligations. Our aim is to inform our clients in a timely manner about the user obligations and how to meet them.

Best regards,

HAUFF-TECHNIK
GmbH & Co. KG
