

# ETGAR exterior sealing element for singleline building service outlet

for ETGAR building package for single-line building service outlet

### HAW-E ETGAR AD

Article no.: 3030491405, GTIN: 4052487242028

• Tested according to DIN 18533

Visual installation reliability due to built-in inspection opening

To supplement the ETGAR BHP wall version for buildings with a basement. Can be used in core drill holes in double walls/element walls and for integration of existing building seals according to DIN 18533 W2.1-E. The sealing width of 80 mm provides a seal against both the concrete shells of the double wall/element wall and the pre-mixed concrete filling.

Picture may differ from selected product

## **FACTS**

#### **Advantages:**

• Combined outer sealing element with outer flange

#### **Dimensions:**

- OD: 160 mm
- Sealing width: 80 mm

#### **Material:**

• Glass fibre reinforced polyamide/EPDM/stainless steel V2A (AISI 304L)

## **FEATURES**

Packing unit: 1

Hauff-Technik Swiss AG Grabenackerstrasse 7 4702 Oensingen, Switzerland
