

Outer sealing element module 6

for district heating basic variant 1 and 2

MSH FW Basic M6

Article no.: 1933005500, GTIN: 4052487126656

- **Visual installation reliability due to built-in inspection opening**

For sealing in core drills for double walls/element walls. The sealing width of 90 mm provides a seal against both the concrete shells of the double/element wall and the pre-mixed concrete filling. This prevents rising water in the area between the element wall and the concrete filling from penetrating the core drill hole.

Picture may differ from selected product

FACTS

Advantages:

- Highly reliable thanks to sealing width of 90 mm

Dimensions:

- Compatible with core drill/wall sleeve ID: 299 - 302 mm
- Sealing width: 90 mm
- Insertion depth: 115 mm

Application range:

- Waterproof concrete stress class 1 and 2

Material:

- Die-cast aluminium with cathodic coating/EPDM
